Fuelwood for Homes and Communities: online training event 15 January 2021, 11.00am

Introduction

This training event was one of a series organised by CWA between January and March 2021. The event focussed on developing fuelwood and biomass supply and the Renewable Heat Incentive and featured a presentation from Will Richardson ([RDI Associates](#)). Topics included:

- The biomass industry and the Renewable Heat Incentive (RHI)
- RHI fuel requirements: The biomass suppliers list – what do you need to know?
- Installing biomass boilers post RHI – for households and communities
- Community woodland management for woodfuel production
- Importance of quality standards and certification
- Key features of fuel quality

Presentation

Will's presentation is available at: <https://youtu.be/7OwRGPPSg08>
